CURRENT SITUATION

Technology is now an **essential part** of our children's lives and can provide many positive experiences for our family.

Children are starting to **use technology** at a younger age. More and more students have 24/7 access to technology.

Without parental involvement children are left to self regulate in an un-moderated world.

This course brings together **ALL THE TOOLS NEEDED** for a family to create a **safe** and productive **online environment**.

BENEFITS

- ✓ Everybody knows where they stand
- ✓ De-mystifies technology and the online world
- ✓ Empowers parents and carers
- ✓ Parents and Carers have a feeling of support
- ✓ Cyber issues are reduced benefiting the entire community
- ✓ The courses can be revisited at any time on any device

PROGRAM INFORMATION AND OUTCOMES

- ✓ Up to date information
- ✓ Achievable for every family
- ✓ Time effective
- ✓ Based on undeniable credibility
- ✓ Instructional video content
- ✓ Dozens of factsheets
- ✓ Links to useful websites
- ✓ How to videos

TESTIMONIAL

I found this online training very, very valuable. It made me realise that I can be in control of what my boys are viewing and how much time they spend viewing. This then encouraged me to research further ways in which I can manage cyberspace with or for my boys. The training provided me with tools and resources to help me understand what I could do to protect them in this environment. This is an extremely useful training product for any parent, I found the modules very user friendly. I strongly recommend that all parents find the time to do this training.

Tiffany M. | Mother of two boys: 10 and 12 years of age.
